

AA – WS 5.4 Graphing in Point Slope Form

Name: _____

Identify the slope and the point. Graph each equation.

1. $y - 2 = (x - 3)$

m = _____ point _____

2. $y + 2 = 2(x + 3)$

m = _____ point _____

3. $y - 2 = -\frac{3}{2}(x - 3)$

m = _____ point _____

4. $y + 5 = -(x - 2)$

m = _____ point _____

5. $y - 1 = -3(x + 2)$

m = _____ point _____

6. $y - 4 = (x - 5)$

m = _____ point _____

7. $y + 3 = -2(x - 1)$

m = _____ point _____

8. $y + 5 = \frac{4}{3}x$

m = _____ point _____
