

Welcome to Applied Geometry

Mrs. Bahr

2015-2016

Olathe South High School

Welcome Parents!!

I am so excited to be teaching your student this year. I have a love of math and a passion for teaching. I look forward to exploring the great world of Geometry with your student!

This class is designed so that your child can be successful. I am available before and after school to assist your child in understanding the material.

I believe education is a partnership between the students, the parents and myself. It is essential that we work together to achieve the success that I know is attainable.

T.E.A.M.

Together Everyone Achieves More

Please feel free to contact me if you need anything:

Thank You!!
~Mrs. Bahr~

Class expectations—students have a detailed version; please review with your child and contact me with any questions or concerns.

Please support the school policy that students are not allowed to use cell phones, ipods, etc. in class unless under the direction of the teacher.

Supplies:

- 3-ring binder
- calculator (TI-30XIIS or graphing)
- notebook paper
- Pencils and erasers
- 2-pocket folder (to be kept in the classroom and has already been given to them)

Grading: I use a weighted system. Please keep this in mind early in the quarter. The grades will look distorted, but will balance out as we get more assignments.

45% Tests	35% Quizzes
10% Homework	10% Final Exam

All students are expected to do their best work. Assignments should be in pencil, complete, neat and done to the best of each student's ability. Students should be active listeners during class time. During group activities, students should participate and contribute to the group.

Extra Help

I am available to answer math questions your students may have before or after school in room 1007. Please encourage your child to quickly get help if they are struggling or have been absent from school.

Grades

ParentVue is a great way to keep track of your student's grade. I will send weekly progress reports via email to the email addresses listed in ParentVue. If your email is incorrect in ParentVue, please contact the school to get that updated.

Website: www.lisabahr.weebly.com

Check out my website for the class syllabus, lesson notes, homework, tutoring information, and dates for quizzes and tests. Also, posed on my site you will find helpful school information regarding schedules changes, etc.

B.Y.O.D. TECHNOLOGY USE EXPECTATIONS:

Please refer to the *Olathe Public Schools BYOD Acceptable Use Student Agreement*. Building policy (via OSHS Student Handbook) will be followed in the event of technology being used to send text-messages or other non-teacher directed communication via technology during instructional time.

Homework/Tests/Quizzes

Expect that your student will have homework every night. Generally homework should take approximately 30— 45 minutes to complete. Homework needs to be completed in pencil. Homework is usually due the next day and will be graded in class for 10 points. Students have a handout explaining the point system for their homework assignments. Typically, we will have a quiz each week, resulting in several quizzes throughout each quarter. Tests will be given at the conclusion of each chapter and will be worth 100 points. Students are not allowed to use notes or homework on their quizzes or tests, unless otherwise specified. Students may use a calculator on homework, quizzes and tests, unless otherwise specified.
